Rockergrid cover modules

PACK QTY		
1 gang	4	9581/RG
2 gang	4	9582/RG

- Suitable for any Rockergrid module.
- Rockergrid modules fix directly into moulded-in grid ring screw fixing.
- Enables a wide range of switch variations in Ip66 rated enclosures.
- Can be used to provide 2 gang switch option where space is insufficient for standard Weatherseal module.

Switchgear cover assemblies

The 56 Series Two Gang Cover Assemblies are moulded in hi-impact polycarbonate and feature a specially designed mounting bracket which will accommodate the full range of circuit breakers, RCDs and combination MCB/RCDs.

Covers suit all 56 Series Enclosures (minimum standard depth 63mm) and are supplied with neon indicators which can be wired from either the line or load side of the switch.
